PROJECTS

MTECH PROJECT, (Android (JAVA, Firebase))

Jan' 23 - May' 23

- Developing an android application for MTech students to maintain their project application easily, where students can see the list of available guide and their uploaded report are first verified by their guide then forwarded to examiner for final verification and student should notified for the same.
- <https://play.google.com/store/apps/details?id=com.mca.mtechproject>

NITC AUCTION SITE, (HTML, CSS, PHP, SQL)

Mar' 22 - May' 22

- Built a website to help students to buy/ sell products online. It consists of a bidding page where user can bid for a product. It also consists of admin page who manage all products and users.

ALUMNI GUIDANCE SYSTEM, (HTML, CSS)

Sep 21 - Oct' 21

- It helps the NITC students to know the company visited for providing Internship/ Placements and connect with alumni who placed there. It also provides you best resources for interview preparation as well as semester subjects.
